

ORGANIZERS

C.V. Raman College of Engineering (CVRCE), Bhubaneswar, is an Autonomous Institute affiliated to Biju Patnaik University of Technology and approved by AICTE. The Institute is recipient of NAAC Grade- A and most of the departments are accredited by NBA. The college has hosted numerous National and International conferences and workshops and possesses state of the art infrastructure and resources. The institute offers graduate and post graduate Engineering Education programmes in various disciplines. Apart from the regular UG and PG courses in Chemical Engineering, the Department also offers PG level degree program (M.Tech in Food Technology) with advanced lab facilities. Chemical Engineering Department is imparting the advanced level technological programmes with Centre of Excellences and R&D facilities. To support the curricular as well as research activities, the department has a CHEMCAD and FESTO Training Centre, helping the department to truly make a strong foot print globally.

OBJECTIVE OF THE PROGRAMME

The programme is dedicated to the dissemination of advanced knowledge in the area of Green Energy Technology which is in demand in present days. It is being designed to provide a strong platform for professionals from both academic and industrial sectors, stake holders, policy makers and government regulating agencies to facilitate exchange of scientific achievements for the benefit of the region, especially for Odisha. This programme will offer a forum for an extensive discussion on Green Energy Technologies and their uses. It will provide platform for direct interaction for delegates with scientific and technical leaders in this field. In consideration of a significant relevance of Green Technologies for future generations, an emphasis has been provided to explore the possibility of integrating its engineering aspects for the UG and PG programmes of this department.
